ABOUT ME

I am Melvin R. Catabas, a fourth-year Bachelor of Science in Information Technology (BSIT) student majoring in Website Technology System from Nueva Ecija University of Science and Technology (NEUST). As part of our curriculum, I am required to complete On-the-Job Training (OJT) to gain practical experience and apply the knowledge and skills I have learned throughout my academic years.

PROJECT EXPERIENCE

A Web Based Job Order Requisition System for NEUST

Capstone Project 2025

Developed a web-based service request and job order management system designed to streamline maintenance workflows within organizations. The system allows users to submit requests, track progress, manage materials, and improve communication between departments. The project demonstrates strong skills in full-stack development, database design, and user-centered system functionality.

CERTIFICATE & TRAININGS

- Enhacing Wireless Performance: WIFI Planning & Design/P2P using Online Tools
August 30 2025
 - AI & Analytics Masterclass Series: Turning Data Into Strategic Decision
August 15 2025
 - The Next Generation of Buildera: Empowering to Create Bias-Aware Ai
August 18 2025
 - Hour of Code Campaign
August 16 2025
-
